New Jobskin® Premium

Compression therapy garments for the treatment and management of scarring due to trauma injury and burns

Fabric types in the Jobskin® Premium range

Jobskin® Original

Excellence in made-to-measure garments for burns & scar management for over 40 years.

- High performance original powernet
- Co-ordinating finish and threads to the fabric
- Offered in 8 solid colours and 16 prints

Jobskin® Active

Ultra fine knit performance fabric with superior stretch qualities and UV protection

- Clear cut - will not ladder
- Co-ordinating finishing and threads to the fabric
- Offered as a 'sporty garment' look
- Available in 2 plain colours

Jobskin® Q10

- Known as ubiquinone is a natural component of the skin providing an antioxidant effect
- Contains coenzyme Q10 to enhance moisturisation of the skin while the garment is worn. This can improve elasticity & hydration of the skin
- High performance powernet
- With a square knit stretch for fast recovery and tailored consistent compression
- Offered in 5 skin tones to mirror the Fitzpatrick type II - VI and 2 fun prints, all with co-ordinating finish and threads to the fabric
